

This gives you a short overview how this website works if you don't figure it out yourself at first sight. I am currently working on the English text for the introduction site.

To browse through all the available car papers just click on „Typenscheine“ in the top bar under the logo. After that below the photos you can now begin to click through the collection by choosing the different brands and models.

For example: You can see „Ford (19)“ – this means that there are 19 categories to choose from in the level below, so click on it and you will see the next selection options. Now we take „Prefect (3)“, clicking on it again opens the next level of choices. Now you see no brackets with numbers anymore – that means clicking on „Ford Prefect 100E“ brings you exactly there!

The technical details, prices and pieces in stock are also listed in English there.

Prices already include taxes.

There is no direct ordering option on the website because most times there are some details to clarify before the order so it will be sure that you get exactly what you want. In case of interest in one or more papers just contact me via Email or call me if you want:

+43 650 55 17 217

I hope to hear from you again and everything is clear now - if not feel free to contact me anytime

**Regards
Gerald Brunner**
